

Lake Ontario Region 16

**Let's Talk About
Diversity and Inclusion**

The Chorus Toolkit

Why not now?

1. Pilot Lessons Learned
2. Change Management for Diversity and Inclusion
3. Change Management during COVID-19

Pilot lessons learned

1. The 'Why' is not clear enough across the organization
2. The contents of the toolkit are substantial – they are more likely to be successfully applied with a staged and strategic rollout
3. Chorus leadership support (both musical and administrative) is critical for the adoption of the chorus toolkit

Tips for Change Management for Diversity and Inclusion

- You can't fast-forward to belonging. You have to go through the hard work of creating an inclusive culture so you can get to belonging.
- A 'one-size fits all' approach is not effective. Be open to trying new things and be sure to share success stories.
- Lasting change must activate different parts of the system – top down, bottom up, and middle out. Everyone must understand they have a role.

Tips for Change Management in the COVID-19 Paradigm

- Focus on priorities – make the changes that have the most impact – and communicate compelling reasons for them
- Be cognizant of change saturation – it actually creates a change barrier
- Recognize the factor of ‘what do I have to lose’ has a stronger weight than ever – because so much has already been lost due to COVID-19

So What Now?

1. Continuation of Pilot

More focused, structured and specific

More direct and person support from DITF

2. Prioritization of toolkit components and creation of roadmap

3. Support teams to enable progress to continue

A Couple of Toolkit Teasers

1. Project Implicit

Diversity, Equity, & Inclusion

Song Assessment Tool Components

How It Works

The **Song Assessment Tool** assists singers with research to determine whether a song is appropriate for Sweet Adelines to sing. The **ever-expanding database** lists songs which have already been researched. Here you will find resources to help walk you through the Song Assessment Tool component of the soon-to-be-launched Chorus Toolkit.

First step: View the guide to get started.

Second Step: View the Song Assessment Tool Questions

Now you're ready! Input Answers into the Song Assessment Tool

Song Assessment Tool Submission Process

All steps performed by SAT Committee unless otherwise indicated

Through submission

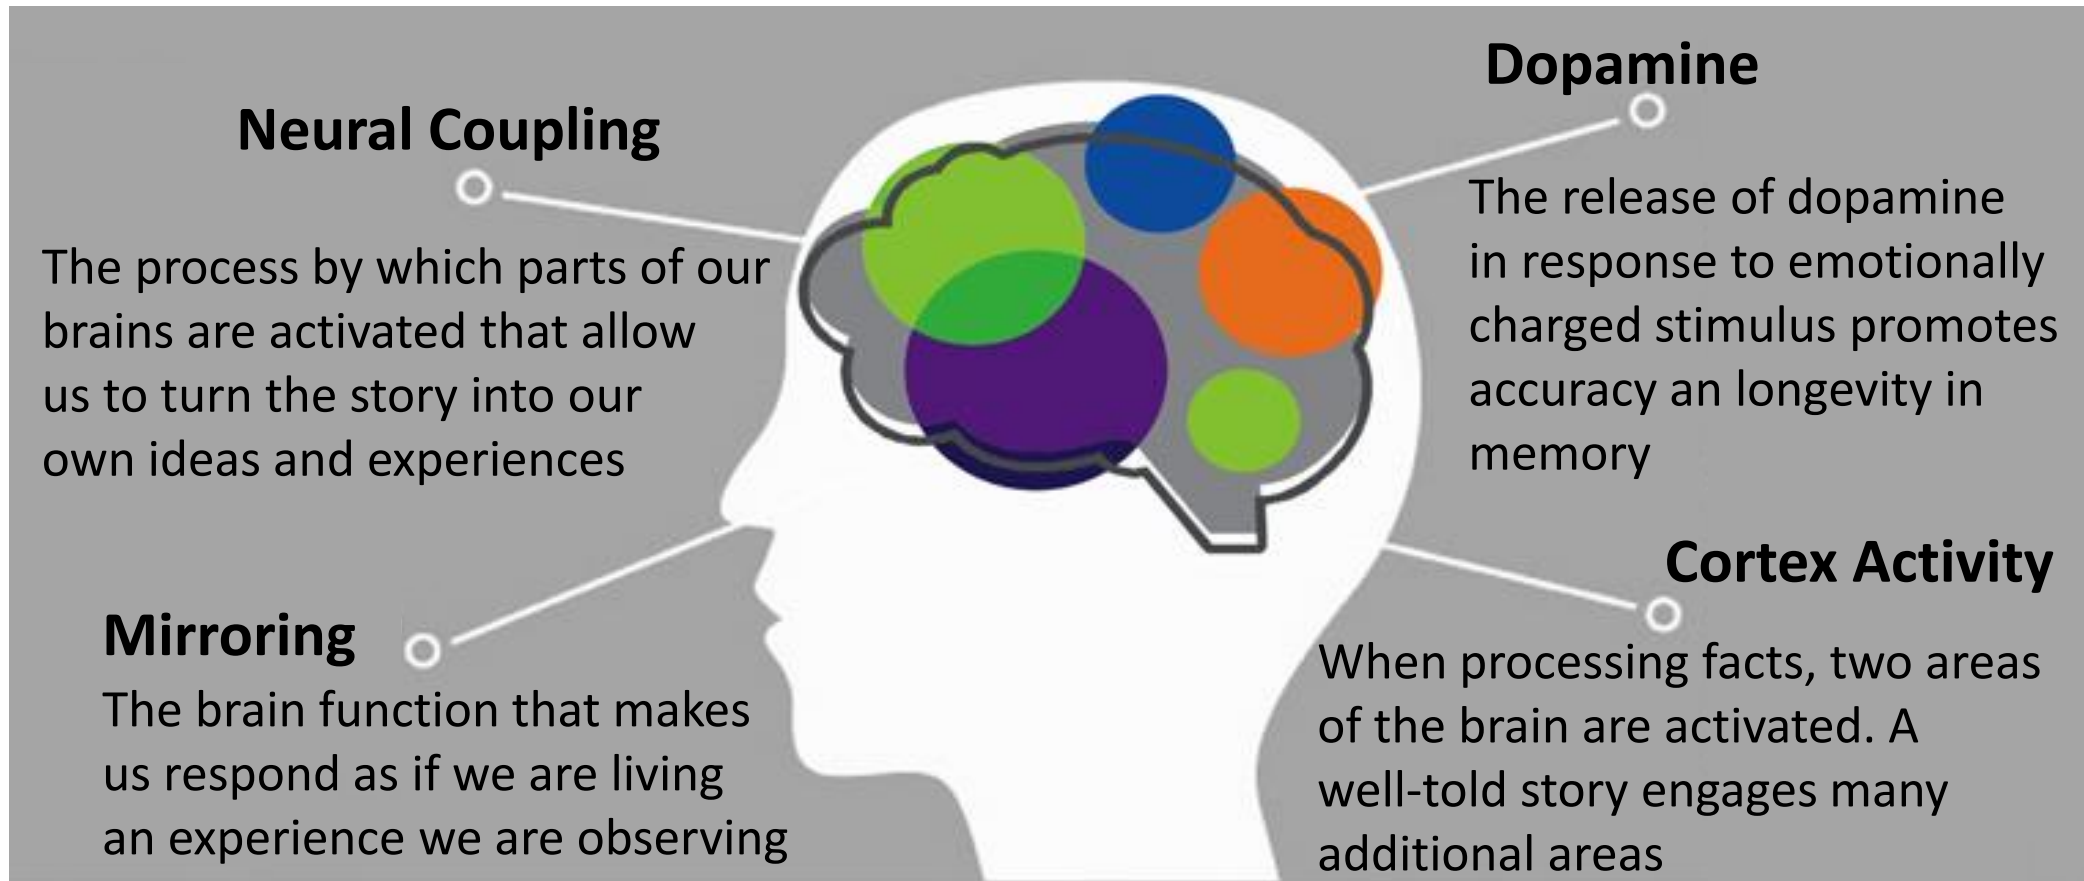

DEI Council Song Assessment Tool Committee notified

Let's Explore another Toolkit Component

This is Your Brain on Storytelling

Let's Try it Out!

The Framework:

The point of the exercise is to listen and allow yourself to fully experience the story

Use the 'SITS' principle – Stay In The Story - work to resist framing a response or judgment

Allow your brain's natural functions to immerse yourself in someone else's experience

Topic 1: What I experienced in school

Let's Try it Out!

The Framework:

The point of the exercise is to listen and allow yourself to fully experience the story

Use the 'SITS' principle – Stay In The Story - work to resist framing a response or judgment

Allow your brain's natural functions to immerse yourself in someone else's experience

Topic 2: How has the performance of religious or faith based music impacted me
